

ESET NOD32 Antivirus for Mac

New Internet threats evolve every day.
You need a security solution that's ahead of the curve.

Antivirus

Protects proactively against emerging viruses. Prevents the spread of Mac and PC threats over your network.

Antispyware

Stops the theft of your passwords and data. Keeps your online life safe from cybercriminals.

You selected a Mac for elegance, power and security. But as the popularity of Apple products grows, so does their appeal as targets for cybercrime. With new threats appearing every day, you can no longer assume your Mac is safe out of the box. You need a fast, light, effective antivirus product to safeguard your data. You chose a forward-thinking computer – now choose a malware solution that stays ahead of the curve.

System requirements – Mac computer with an Intel processor running Mac OS X Leopard (10.5) or later, 512 MB of RAM and 100 MB of disk space.

ESET NOD32 Antivirus for Mac

Antivirus | Antispyware
